**Partido dos Trabalhadores do Brasil**

Dear comrades,

we regret that we are not able to personally be with you in this important moment: to show and underline our support to Lula da Silva. After the parliamentarian coup against Dilma Rousseff it is overdue that Brazil returns to democracy and that the neoliberal and anti-emancipatory agenda which is pushed through by Michel Temer and his illegitimate government against the interest of the people is going to be stopped. At the moment we watch a political campaign of the media and the judicial system to hinder Lula to be the candidate for presidency, especially because he could be most likely the winner of the upcoming elections. We fear a political trial and we are deeply hoping that justice and democracy, not judicial arbitrariness, will win. In this sense we are transmitting our solidarity in the name of the German DIE LINKE to Lula da Silva and your Worker`s Party.

In solidarity,

Katja Kipping
